RESEARCH & DEVELOPMENT

Each day, we at CHERESO strive to make our products healthier choices that help consumers care for themselves and their families. This would not be possible without our R&D capability, nutrition science and passion for quality in everything we do. CHERESO has its own in-house Research & Development (R&D) lab duly approved by Govt. of India, Ministry of Science & Technology, Department of Scientific & Industrial Research (DSIR). R&D activities are given top priority in the organization and are managed by a highly qualified team. The R&D unit constantly strives to develop new products and improve the already existing ones. It is engaged in innovative research and development activities. We are able and committed to create trustworthy products that contribute to improving the quality of consumers' lives.
